### **DISCUSSION**

Prevention of youth delinquency is important. The following important factors were considered:

1) The consciousness and outlook of young people is being formed. They need to have high standards. If for them the conceptual definition of right and correctness is not an ideal that ensures their well-being, their tendency to commit crimes will increase.

2) Their training plays an important role. We should keep them busy with sports, art, and science. If young people have free time, they are more likely to engage in delinquency.

3. Young people should socialize themselves and become socially active. They should feel themselves as an involved subject of social life. If there is no such feeling, there is a high probability of violation.

Also, to create a swamp rich in laws, young people should feel the need to be engaged in work, science, that is, active training.

It can be seen from this that if the prevention of youth delinquency is successfully carried out, their worldview and lifestyle will be effectively formed.

This section attempts to analyze the importance of youth delinquency prevention. The above points are proven by their own research and objective analysis.
