The influence of ethnocultural processes on the way of life of Vakhshivor mountain and sub-mountain inhabitants goes a long way. Among these, social, cultural and literary skills, national and religious customs, marriage education, nature and humanity skills, etc. can be included[4]. Cite a source here.

This information is taken from an article analyzing the impact of ethnocultural processes on the lifestyle of Vakhshivor mountain and sub-mountain inhabitants[5]. The lifestyle of Vakhshivor mountain and sub-mountain inhabitants is influenced by ethno-cultural processes. This influence is far-reaching and may include social, cultural and literary skills, national and religious customs, marriage education, nature and humanity skills, etc[6]. The Vakhshivor Mountains are a massif of mountains located in the Boysun district of the Surkhandarya region of the Republic of Uzbekistan[7]. These mountains are part of the mountain range between Uzbekistan and the southern Chinese islands[8].

The Vakhshivor mountains are made up of high places with biological life, heavy saroymis forest, different slopes and dry coasts located at two or four levels, and they are considered one of the most important natural objects and natural resources of Uzbekistan[9]. The Vakhshivor mountains consist of 2 roofs, the first roof contains relatively small mountains, their average height is 2500-3000 mtr., and the second roof includes high mountains and their average height is 3500-4500 mtr. it only comes out. Vakhshivor mountains are not only a place of residence for Uzbeks, but a sweet reputation for the whole world[10]. They are distinguished not only by various natural objects, but also by labor and unique cultural heritage from the riches of Surkhandarya region and Boisun district. Information about the social relations of the inhabitants of the Vakhshivor Mountains is needed. The inhabitants of the Vakhshivor Mountains have friendly and social relations with each other[11].

They help each other to protect their different cultural heritage. Among the population there are artistic, musical and various emotional skills. With these features, people express their feelings and various events[12].

In particular, many ancient artistic genres have been preserved in the Vakhshivor mountains, and mutual consultation, mutual support and exchange of ideas are carried[13] out every day. It is these relations that are connected with widespread national and religious customs and feelings. The population developed ancient Uzbek national literature, music and art[14]. Thanks to this, the residents of Vakhshivor Mountains continue to protect Uzbek literature and art, and to show various national creations[15]. Also, residents of the Vakhshivor mountains have friendly and friendly relations with other residents of Uzbekistan, and among the residents, a person who died is commemorated, and anti-remembrance customs are imposed on them. The inhabitants of the Vakhshivor mountains pay great attention to the preservation, protection and exchange of culture[16]. Humanity, nature, history and national literature are protected in this place. People's art of feeling, ancient artistic genres, development of literature and poetry, historical places and monuments, close relations with other residents[17] of Uzbekistan are also considered important.

CONCLUSION. Residents of Vakhshivor mountains take an active part in the creation of various national literatures and works[18-28]. At the same time, national dances and skills, lifestyle, food customs and literary heritage are among the main aspects of exchange and exchange in the Vakhshivor mountains. These customs are unique and very important for the population. They help to protect the national and cultural situation[19]. At the same time, the inhabitants of the Vakhshivor mountains have various social achievements, they help and seek mutual help[20]. Such advances include medical care, various economic ties, and social relationships. All these feelings, art, national literature and customs, historical places and monuments, lifestyle and food traditions are the main parts of the culture of the people of Vakhshivor mountains.
