Article history:	Abstract:
<b>Received:</b> 20 <sup>th</sup> October 2024 <b>Accepted:</b> 11 <sup>th</sup> November 2024	In this article, the "Uzbekistan-2030" strategy and the main goals of its implementation in the Republic of Uzbekistan, the prospects for the gradual and organic development of all sectors in our country, the main and priority ones that should be implemented in our country in the near future in the era of world globalization thought about tasks.

**Keywords:** "Uzbekistan-2030" strategy, the principle of a populist and peace-loving state in New Uzbekistan, sustainable development.

## INTRODUCTION.

In the current era of globalization, to realize the desire of our people to build a free and prosperous, democratic and powerful society, to create all opportunities for every citizen to develop their potential, as well as to raise a healthy, educated and morally mature generation. , the formation of a strong economy, the guarantee of justice, rule of law, security and stability make steady implementation of reforms in New Uzbekistan a necessity of life. It is practical that the implementation of the above-mentioned processes in our country on the basis of an organic sequence, in turn, the unity of our people, the establishment of a prosperous New Uzbekistan for the future generation in our society and the priority tasks of its further development are confidently supported by the people of Uzbekistan. finds its confirmation in works.

## DISCUSSION AND RESULTS.

In accordance with the decree of the President of the Republic of Uzbekistan No. PF-158 of September 11, 2023, the strategy "Uzbekistan - 2030" was approved. This document is considered an important document defining the main directions of development of Uzbekistan in the next 7 years and aims to achieve 100 goals within 5 priority directions. The "Uzbekistan - 2030" strategy was developed in order to ensure the sustainable and inclusive development of the country and defines the directions of long-term development of Uzbekistan. It envisages reforms in various fields, economic growth, improvement of education, medical and social protection systems, ensuring ecological stability and modernization of state administration.

Also, the Strategy aims to realize the desire of our people to build a free, prosperous and powerful New Uzbekistan, to create all opportunities for every citizen to develop their potential, to raise a healthy, educated

and morally mature generation, to form a strong economy that has become an important link in global production, serves the goals of guaranteeing justice, rule of law, security and stability. The "Uzbekistan - 2030" strategy, which was developed on the basis of the experience gained during the implementation of the development strategy of the new Uzbekistan and the results of public discussion, reflected the following main ideas:

- taking a place among countries with higher than average income through stable economic growth;
- organization of the education, medical and social protection system that fully meets the requirements of the population and international standards;
- creation of favorable environmental conditions for the population;
- establishment of a fair and modern state in the service of the people;
- guaranteeing the sovereignty and security of the country.

The "Uzbekistan-2030" strategy consists of the following 5 priority directions:

- to create suitable conditions for every person to realize his potential;
- ensuring the well-being of the population through sustainable economic growth;
- saving water resources and environmental protection;
- ensuring the rule of law, organizing public administration in the service of the people;
- consistent continuation of the policy based on the principle of "safe and peaceful state".

This strategy is a program that can meet the main and most important requirements mentioned above, and to be more precise, it is a national program that embodies the new era, the stage of the new era, which serves to ensure the future development of our national independence. is our month. To realize the

desires and wishes for the creation of a new Uzbekistan, to create the necessary conditions for every citizen living in Uzbekistan to realize their potential and opportunities in the society, to raise an educated and morally perfect generation in all respects and turning it into an important link of international production, forming a strong and stable economy of the state, where justice is the priority, the rule of law is ensured, and it serves to guarantee security and stability.

Many analysts call the strategy "Uzbekistan-2030" the People's Strategy. In other words, the goals and objectives defined in the "Uzbekistan - 2030" strategy serve as a unique "road map" for the implementation of the UNO Sustainable Development Goals. Implementation of this strategy and achievement of its target indicators is the most important task of all state bodies and organizations. The "Uzbekistan - 2030" strategy envisages the implementation of a total of 100 goals, 369 measures, 190 tasks, 306 target indicators, and the development of 118 regulatory and legal documents in this regard. From the implementation of this programmatic document, every person in our country will receive favorable opportunities, certain reliefs, material and spiritual benefits, and every family and household will find prosperity, abundance, grace and blessings.

### **CONCLUSION.**

In the state program for the implementation of the "Uzbekistan-2030" strategy in the "Year of Youth and Business Support", the position of personnel training in non-governmental and foreign higher education organizations operating in the republic on the basis of state grants it was decided to formulate proposals for reaching 1,200 students (increase by 20%) in the form of full-time education only. Also, in the state program, a complete revision of the undergraduate education system and areas close in terms of content will be combined, adapting to the requirements of the modern labor market, undergraduate courses such as accounting, logistics, marketing, IT, design, tourism, etc. revising the duration of studies in the fields, establishing training for promising new specialties such as bio-engineering, nano-technology, IT engineering, urbanism, green energy, engineering-technical. It is planned to conduct a comprehensive analysis of the activities of 33 state higher education institutions in the field of research, to appoint co-leaders from leading foreign scientific organizations, research and higher education institutions for fundamental research projects.

These strategic legal documents do not consist of empty numbers or unreasonable programs. The financial sources of each direction and tasks defined in the "Uzbekistan-2030" strategy have been decided, and their implementation has been clearly defined these days. In order to make the assigned tasks more effective, as the Head of State emphasized, we need to turn time into opportunity, opportunity into achievement, and achievement into the foundation of development. After all, our only goal is to turn our country into a strong legal state and a prosperous civil society.
