Article 13 of the Law of the Republic of Uzbekistan "On General Military Obligation and Military Service" stipulates that pre-service teacher must begin courses or classes on the eve of the year of graduation. Given the importance of these issues, the direction of "Pre-conscription military education" in higher education, that is, one of the main disciplines in the training of future teachers "Pre-conscription" "Military patriotic education".

Education of military patriotism interested in military service in young people it provides for the development of military professions, assistance in the preparation of young people for service in the Armed Forces of the Republic of Uzbekistan.

Youth is the future of our Motherland, our nation. As we entrust the fate of our country to them, first of all, they must have a deep understanding of the complex and responsible task entrusted to them, and contribute to it. After all, love for the Motherland is directly determined by the creative work of everyone for the prosperity of this country. Nurturing thoughtful young people, imbued with the ideas of national patriotism, is of great importance in the development of national identity.

Therefore, each of our young people preparing for the defense of the Motherland must be brought up in the spirit of high patriotism. Patriotism is a high human quality. Patriotism is one of the brightest aspects of perfection. That is why it is called in Hadith, "Loving one's country is from faith." However, it should be noted that today's generations of the people, who in the past made a great contribution to world civilization; their heritage is recognized by the peoples of the world, because they have such feelings of national pride and spirituality. Leads to perfection, strengthens the pursuit of national identity. Military patriotic education works best when it is integrated with physical education.

Therefore, military patriotism cannot be imagined without physical education. Tolerance to cold and heat, not to succumb to diseases, to overcome difficulties, willpower. Sabotage - perseverance, ability to move fast and agile the role of physical education and sports in teacher development is enormous.

One of the urgent tasks of today is to educate young people in the spirit of patriotism, to prepare them physically and spiritually for the defense of the Motherland. Training of students in general education institutions, secondary special and secondary vocational education institutions, including students studying in higher education institutions in the spirit of military patriotism is now an education. Through all systems of educational work. Indeed, true devotion to the Motherland requires the ability to defend it. Educating students in the spirit of military patriotism should be a priority for all types of educational institutions.

One of the important tasks of the pedagogical staff of educational institutions is to provide students with theoretical and practical knowledge of military patriotic education, to prepare them for military service and to fulfill their duty to protect the development of independent Uzbekistan. The subject "Military patriotic education" will help to solve it successfully. Organizes the organization, content, forms and methods of spiritual, political, psychological and physical training of students to serve in the Armed Forces of the Republic of Uzbekistan.

The main tasks of the subject "Military patriotic education" are: First, in connection with other disciplines taught in educational institutions, to educate students in the spirit of national patriotism to be always ready to take up arms in defense of their homeland; Second, to develop pedagogical qualities in students, to cultivate active, conscious builders of a new society,

people who are loyal to the ideas of national independence, hardworking, courageous and give their lives for their country; Third, to equip students with theoretical and practical knowledge on the issues of "Military patriotic education", to teach them in a position typical of a teacher of "Primary Preparation for Conscription" in secondary schools, lyceums, colleges.

-formation of skills and abilities in the organization and conduct of educational work. Military patriotic education As a result of studying the subject of basic military training, students should know the following: - Methods of organizing and conducting extracurricular activities, forms and methods, defense and sports activities during the "Primary training of young people before the call" in secondary special and vocational education institutions; - Organization and holding of "Vatanparvar", "Salomatlik" norms and "Shunkorlar" military sports game, trainings, completion of the subject "Primary training of youth before conscription" to spend processed holidays.

- Establishment of military circles to learn the basics of military work. During the study of this subject, each student independently prepares 4-5 lectures on military patriotism (report, abstract) condition Military patriotic education - how to achieve the effectiveness of youth education. The successful solution of the problems of strengthening the defense of our country is closely linked with the education of young people, political consciousness, labor activity and the pace of scientific and technological development. Upbringing is an objectively based process of directing people to physical and mental work or other useful activities for society, as well as preparing them to perform multifaceted social tasks.

Military patriotic education is an integral part of it. The methodology and scientific basis of military patriotic education are applied to the human factor. This concept includes a set of ideological, political, spiritual, physical and other human qualities. On the theoretical and practical bases of military patriotic education the Constitution of Uzbekistan, ideas of the President of the Republic of Uzbekistan on patriotism and defense of the

independent Motherland, laws and resolutions of the Oliy Majlis, the Ministry of Higher and Secondary Special Education, the Ministry of Public Education, There are orders and instructions of the Ministry of Defense, military pedagogy and psychology, military sciences and other rules and regulations.

In this regard, the president of the Republic of Uzbekistan Shavkat Mirziyoyev's speech at the expanded meeting of the Security Council of the Republic of Uzbekistan in Yanvar in 2021 called "Armed Forces-a strong guarantee of stability and progress of our country" was reflected. The head of state "is the head of the country in the spirit of the country, the covenant of the country in the spirit of military-patriotics of the country, and in their military units of schoolmen in their arms by the military units They set out "the tasks of patriotism and military glory."

In addition, along with the introduction of an organized young people in the Armed Forces, along with the military-patrasarianism, the task of the organization of work on the organization of work to be held in the labor market has also been set.

Military patriotism should be carried out in the Constitution of the Republic of Uzbekistan, the current national legislation, the Uzbek defense doctrine and the principles established by the principles and law. The purpose of military patriography is the protection of the Motherland A thought, trust, worldview of the readiness for preparation for Forming, give him the power, if he needs. Prospective Spiritual, spiritual, moral - disciplinary, warning of the warriors It is to raise their qualities. Patriotism is a concept that expresses the family of people to their homeland, love and loyalty of its access. One of the universal feelings that are nations, people, nations, which are common to patriotic people, people, and are polished for centuries.

The training of young people in the spirit of military patriots is formed: the following combatics and organizational, commitment and the commands of military knowledge, commemorative military oath and the rules are unconditionally and the rulers do the commands and guidance unconditionally. The starting military preparation, defense - public affairs play a great role. Aid for the military teaching of youth "Aviation, Aviation and Flot Voluntary Volunteer Society "(Desaaf), Currently" Patriots " The defense organization (MCK) contributed in large and innuter. "PatriRist", Patriotsvar "VATURAL" ORGANIZATION, NGO, non-profit organization. Created on November 23, 1991. The citizens of Uzbekistan are independent, popular, sports and patriotic public organizations. The main purpose of the organization is to help the state security of the Republic of Uzbekistan, its Armed Forces, the Width

Amports, especially young people, to protect labor and homeland. It is known to all we know in accordance with the President of the President of the Republic of Uzbekistan No. PF-5106 of July 5, 2017, and to increase the effectiveness of the State Policy of the Youth State Policy and support the activities of the Youth Empower of Uzbekistan, respect of the country. The name of the School of Temurbek, taking into account the fact that all the qualities such as courage, self-religion, and the name of all the republic's military academic lyceums, is a close part of the reforms in this area. The purpose of the Temurbek School is to educate students in the spirit of spiritual and creative potential, to ensure the sovereignty and independence of our country, their legal citizens of the Republic of Uzbekistan, clearly targeted and improving the efficiency of systemic preparation. The next direction of military patriology is physically educated young people. Great attention is paid to the use of national traditions in providing the younger generation in the "On Education" and "National Training Program" in physically supportively educating the younger generation. So, improving the use of national traditions in the process of physical education is a topical issue today. This physical durability blows its ability to be able to lift serious physical duties in daily military service and combat conditions. Readiness to the work of the homeland and protection of homeland, but also for physical education, but also for the work and protection of the homeland, but also the form of free time. School years - Foundation for the whole life, i.e. the foundations of health The absorption is the time. The movement, gymnastics, sports games form positive qualities of youth. Courageousness, will, and educates the people like to be able to even more violence. In childhood, the shortcomings of physical education, the complex and sometimes large age is an unequal age unequal age. The physical training of modern youth does not fully meet the requirements for modern production and the Armed Forces. This is in turn that the public sectors of the folk sectors also suffer from the diseased of young people, related to mental and physical, moral status. Good from district, city and sports institutions Use, increase various sports clubs and sections Improving physical Curriculum is in accordance with the objective step.
